

Glenwood
 LABEL & BOX MFG. LTD.

Square Corners

Due to the vast possible combinations for butt-cut labels, we will give you the minimum and maximum we can do.

WIDTH:
MIN = 3/8"
MAX = 10"

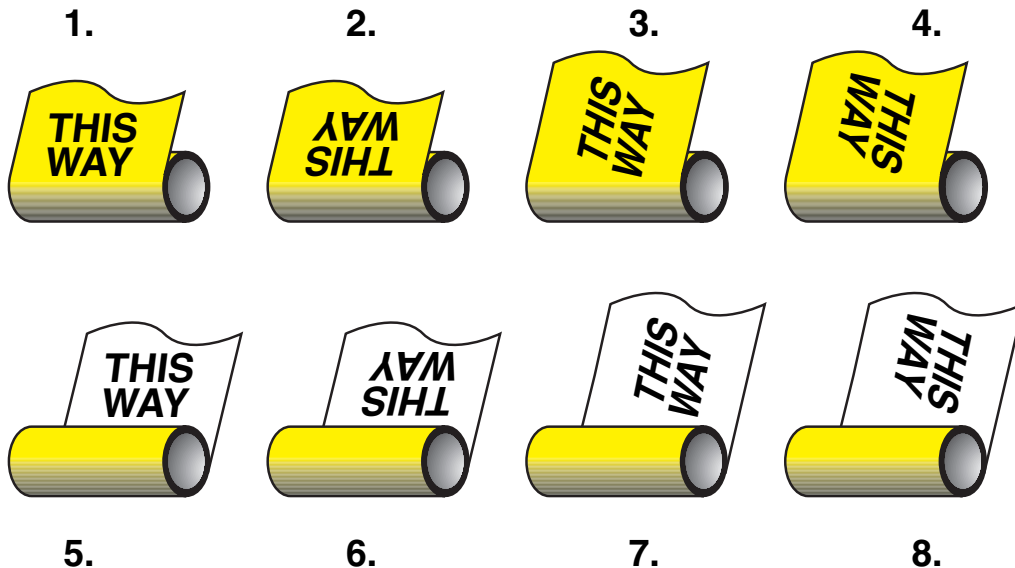

LENGTH:
MIN = 3/8"
MAX = 18"

Please call us to set an exact size for your butt-cut labels!

Once you choose all of your options for the label, the salesperson will need to know how you would like your labels to unwind off of the roll. This can be extremely important if your labels are applied automatically, or if you print information on the label. Below are the 8 possible ways for labels to unwind off of a roll. If you are unsure which way is correct, ask us!
